# H Packers

## H Packers CFPACKER...

HPackers can be used for packing doors, windows, machinery and houses just to name a few. They are Colour coded by thickness for easy identification, and can be used whole or snapped in half to create 2 individual "U" Packers.. HPackers are manufactured from quality, plastic and tested with compressive loads up to 20 tonnes

- HPackers are designed to fill irregular gaps in the Construction Industry.
- HPackers will not rot, shrink, rust or corrode.
- HPackers dimensions – 98mm x 43mm with a 16mm shaft clearance.
- HPackers can be snapped in half - one 38mm long the other 60mm long.

## UHB Ultra High Bond Foamed Acrylic Double sided Tape

- The UHB tapes are designed to replace or compliment traditional fastening systems such as rivets, screws, welding and liquid adhesives.
- They exhibit excellent resistance to long term environmental conditions such as: UV light temperature cycles & humidity, normal weather, moisture & wind conditions
- Assist in preventing corrosion between dissimilar metals.
- Absorb dynamic loads & accommodate differential expansion & contraction.
- Used for effective vibration dampening & noise reduction.
- The UHB release liner is made from strong PE film which will not tear on removal.
